

Join the Nebraska GIS/LIS Association

Geographic/Land Information System (GIS/LIS) technology is rapidly changing the ways governments, academia, and private entities collect and analyze information. There is a growing community of Nebraskans working with or seeking to learn more about this technology.

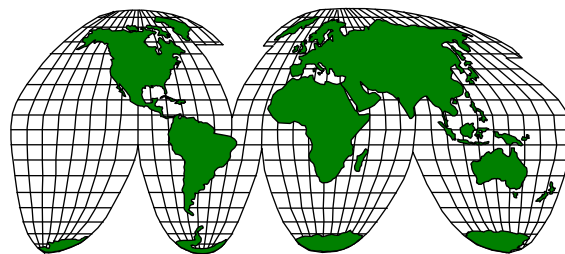

One of the keys to the successful implementation of GIS is coordination and data sharing among users. You are invited to join with others in helping to strengthen Nebraska's growing GIS community by joining and supporting a new non-profit Nebraska GIS/LIS Association.

Your support and participation is the key to our success

The Nebraska GIS/LIS Association is a growing organization of Nebraska professionals involved in GIS, remote sensing, Global Positioning Systems (GPS), and related technologies. The Association will focus its efforts on educating, networking, and adding its collective voice to help shape future GIS development in Nebraska.

Goals of the Association

- ❖ Assist, educate, coordinate and guide the implementation and development of GIS technology in the state of Nebraska.
- ❖ Educate the general public about the nature of and benefits from geospatial information and related technologies, including but not limited to, geographic information systems, the internet, and GPS technologies.
- ❖ Foster a spirit of cooperation among local, state and federal agencies, and the private sector in addressing priority databases for Nebraska.
- ❖ Host regular meetings, conferences and technical workshops for the exchange of information and to exhibit products and services.
- ❖ Publish documents, produce educational materials, and promote education pertaining to geographic information and related technologies.

Membership Benefits

- ❖ Educational Opportunities through Biennial Nebraska GIS Symposiums
- ❖ Networking with GIS/LIS Professionals in Nebraska

- ❖ Local Coordination and Support via Regional Meetings
- ❖ Participation in Association Annual Meetings
- ❖ Voice in Shaping the Association's Policy Positions and its Impact on Future GIS Development in Nebraska
- ❖ Eligibility to Vote and Run for Association Offices
- ❖ Statewide Contacts through Membership Directory

Make checks payable to the Nebraska GIS/LIS Association, c/o Sarpy County GIS, 1210 Golden Gate Dr. – Ste. 1130, Papillion, NE 68046.

"Help build Nebraska's 21st Century geospatial infrastructure - join the Nebraska GIS/LIS Association today."

- Dr. James Merchant, Conservation and Survey Division - UNL

"Omaha is one of many Cities in Nebraska using GIS to manage the many municipal services provided to our citizens. I recommend becoming involved in the Nebraska GIS/LIS Association. It is a great way for City staff to improve their skills and come up with new ways to use GIS."

- Scott McIntyre, P.E., GIS Coordinator, Omaha Public Works Department

"The Nebraska GIS/LIS Association can be a valuable partner with the Nebraska GIS Steering Committee in promoting cooperative GIS development in Nebraska."

- Larry K. Zink, Coordinator, Nebraska GIS Steering Committee

"My experience in the development of a GIS has led me to believe strongly that two components are always necessary for a successful project. One, money and two, assistance from knowledgeable people who have gone through the same experiences that all of us face during this process. The GIS/LIS association is a fantastic means of gaining knowledge and developing partnerships that lead to cost savings".

- Duane Stott, GIS Administrator, Scotts Bluff County, NE.
